

FACT SHEET

UPDATED: 3.30.23

PROJECT STATUS

The project's concept design was taken to City Council in December 2021. The final design is complete and was approved by Council in November 2022. Construction will begin in April 2023 and is anticipated to be completed in two months.

PROJECT BUDGET

The project is funded by a State of California Highway Safety Improvement Program (HSIP) grant in the amount of \$722,100 and the City's General Fund. The budget was increased by \$300,000 to expand the project limit to K ST. Cost of project construction is estimated at \$1, 294,954

PROJECT LOCATION

The project is located on South Coast Highway 101 between K Street and Chesterfield Drive.

South Coast Highway 101 Cycle Track Phase II

ABOUT THE PROJECT

In April 2020 Phase I of the South Coast Highway 101 Safety and Mobility Enhancement Project was implemented between Chesterfield Drive and the southern city limit. The project included a slurry seal, curbing, green bollards and signing and striping to create a cycle track on the northbound and southbound sides of Coast Highway 101. Considering the high level of bicycle and pedestrian activity along the corridor, the need to improve facilities was identified.

A concept for Phase II of a separated bikeway project was presented to Caltrans for possible grant funding as a potential Highway Safety Improvement Program (HSIP) project and Caltrans awarded a grant to the City.

The Phase II project will include slurry sealing of South Coast Highway 101 in the project area and will add a two-way cycle track on the west side of Highway 101 as well as bike lanes in each direction. The project will also implement additional measures of traffic calming along the corridor and increase parking capacity with approximately 50 additional parking spaces.

This project will provide safety and mobility enhancements and supports the city's Strategic Plan Vision for Quality Transportation by providing effective, safe, and easy transportation for all modes of movement and for all demographics.
